

BALANCE

Our facial exfoliator is the most gentle and effective way to remove the constant material that causes premature aging. Other treatments use primarily harsh shells which rip and damage skin, we use brown sugar which is a gentle exfoliant helping to wipe away the bacteria and dead skin, to leave behind the nutritive oils and vitamins. This scrub takes the place of microdermabrasion and chemical peels, restores and heals for a beautiful radiant look! Minimizes and cleanses pores, reduces fine lines and wrinkles on face, hands and body. Most importantly our Balance is a safe, non-toxic, natural way to receive overall nourishment, moisture and plumping of the skin. This exfoliating anti aging scrub is guaranteed to leave your skin smooth, increasing collagen production, prevents premature aging and replenish your skin's youthful look.
